

All international students participate in athletics. One senior was chosen as the Varsity Basketball captain. Another shot 100% from the foul line. One sophomore scored points in twelve games this season; another was named Male Athlete of the Month. Still another competed at the state Varsity Cross Country meet in the fall.

International students attend multiple extra-curricular activities from dances to our autumn Fall Festival and Bonfire. Two international students are elected to the Student Government; one is an elected Student Government representative.

A weeklong trip in February is included in the tuition. This year students went skiing, hiking, horseback riding, and ice skating. Two Middle School students participated in a trip to England with their seventh and eighth grade peers. During Spring Break, six international students will join our International Director on a tour of California colleges. The Director has also taken the students on multiple weekend cultural outings to see movies, visit museums, attend plays, celebrate Chinese New Year, and dine at Washington D.C. restaurants.

Students have also participated in meaningful community service opportunities such as collecting and stocking canned goods at a local food pantry. All current international students are re-enrolling for the coming school year! They are an important part of our school community, and we always enjoy welcoming more.
